Affiliating a coach (Player)

The affiliation between an athlete and a coach can be activated by either party and must always be confirmed by the party, coach or athlete, who will receive the request.

An athlete may affiliate with one or more coaches. The coach will then be able to access the player's statistics and directly take care of the scoring.

To affiliate with a coach, simply go to the main menu under affiliations

Selecting the Affiliations item from the main menu leads to the following mask

At first, the screen will appear empty because there is no affiliation. But later, the coaches with which the athlete is affiliated will be displayed.

Press the search button in the top right-hand corner

And we use the search box to find our coach, the system also suggests the coach's nickname to deal with any homonyms.

Once the coach has been identified, press the + button to the right of the coach and a membership request will be sent to the person.

The athlete, by accessing the current affiliation page,

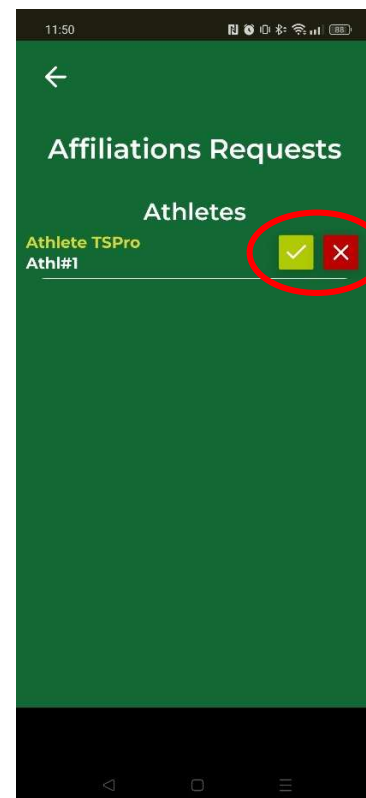

will be able to see the request made and, if necessary, delete it with the red X button

At this point, the coach, by accessing the affiliation management screen from the affiliation menu, will have to access the affiliation request page

Where he will find the request made by the athlete and can decide to confirm it, with the green button, or reject it with the red button.

Once the request is confirmed the affiliation will appear for both: coach and player
